

Supplementary Antenna

- Application: Optimization of GSM send / receive characteristics in unfavourable positions
- 824 – 960 MHz / 1710 – 1990 MHz Frequency range
- 3 dBi Gain
- Impedance 50
- Vertical Polarity
- Cable length 3 m
- Antenna height 283 mm
- Pedestal diameter 30 mm
- Operation temperature – 30° bis + 60° C
